

Natural Facing Builder /Contractor Workshop

COURSE DESCRIPTION

This program provides a framework to evaluate natural sawn thin stone veneers and installation methods. Gaining in recognition and application, natural sawn thin stone veneer is rapidly becoming a leading choice for stone exteriors. The benefits of natural sawn thin stone far out weigh the benefits of other veneer products due to ease of use, impact on the environment & longevity. Learn how Natural Facing is a relevant product line in your arsenal that will both elevate your offerings and make you a more valuable resource to your client.

LEARNING OBJECTIVES

After participating in this workshop you will understand the product, installation and use of adhered thin stone veneer. You will be well versed to:

1. Educate your clients so that they understand why Natural Facing is to best material for their project.
2. Enumerate how the attributes and guiding strategies of Natural Facing, the company, will contribute to the success of each and every project.
3. Familiarize your clients and their teams of Natural Facing's broad selection of beautiful and popular stones.
4. Explore the different uses for Natural Facing.
5. Evaluate application methods and general installation steps.
